

PRODUCT  
OVERVIEW

## IPedge Application Server

### The Power of IPedge for Strata CIX Systems

Toshiba's IPedge® family makes full-featured, business-quality IP telephony easy and affordable for small to midsized businesses and branch offices of larger enterprises. One compact server supports a rich set of capabilities that empower your people to work more effectively and the business to present an enterprise-class persona to the public.

Enhance your existing Strata® CIX™ telephone system with IPedge capabilities. The **IPedge Application Server for Strata CIX** integrates three important applications into a single server. In the process, you save money compared to buying the applications separately, simplify the network infrastructure, and pave the way to evolve to full IP telephony in the future.

- **IPedge Messaging** gives you voicemail, Unified Messaging, and the ability to make and receive Strata CIX calls on your smartphone.
- **IPedge Call Manager**® integrates your PC with Call Control on the Strata CIX, so you can make calls from your contacts, see if colleagues are available, text chat with them, and take office calls at your home office.
- **IPedge Meeting** makes scheduled or spontaneous conference calls more like meetings by enabling you to share documents, presentations and video while talking remotely.

Whether you start with one application or all three, the IPedge Application Server for Strata CIX makes you and the business more effective. The Strata CIX system gains the latest IP unified communications and mobility solutions, without forcing you to move entirely to IP.

Imagine the possibilities. You and your employees can:

- Gain customized control over when, where and how you can be reached
- Organize, view and manage voice mail, email and fax messages in one place
- Use your iOS® or Android® smartphone as a Strata CIX extension
- Have incoming calls ring on both your desk phone and smartphone, without revealing the cell phone number

- Dial, answer, transfer calls and more from a voice-ready laptop or notebook computer—integrating with your contact lists, calendar and CRM system
- See the busy/available status of colleagues and text chat with them, without ever picking up the phone
- Collaborate in multimedia conferences (set up via Outlook® Calendar, if desired) where users can share their desktops and video, without having to load any IPedge client software on their PCs

The IPedge Application Server for Strata CIX is available in three sizes, so you can choose the right model for each location. All three models—IPedge EP, IPedge EC and IPedge EM—are available as application servers for Strata CIX systems. All Strata CIX models (CIX40, CIX100, CIX200, CIX670 and CIX1200) can take full advantage of any size application server. You can even upgrade legacy Strata CTX digital business telephone systems to Strata CIX and take advantage of the IPedge application server.

The compact, all-in-one server uses the same powerful processor and memory hardware as IPedge and is priced to be more cost-effective than a media application server. The IPedge Application Server is also future-ready and can be upgraded to a full IPedge system with call processing with just a simple upgrade license.

It's easier than ever to bring your digital or converged digital/IP phone system into the IP age. If you want to take advantage of IPedge applications, but you're not ready to go all-IP, the IPedge Application server is for you.

**With an IPedge Application Server, your existing Strata CIX system gains unified messaging, unified communications and collaboration—at a lower price than these applications purchased separately or a full IPedge server with call processing.**

## IPedge APPLICATION SERVER CAPACITIES

	IPedge® EP App Server	IPedge EC App Server	IPedge EM App Server
Number of Users	8 - 40	Up to 200	Up to 1,000
<b>Enterprise Manager</b>			
Simultaneous session	4	16	32
Simultaneous Web-based admin sessions	4	64	128
<b>Media Server</b>			
Resources	22	174	480
<b>Meeting</b>			
Audio Channels (Strata CIX hardware limitation)	4	24	24
Web Sessions	4	24	24
Video Sessions	4	24	24
Conference Record	1	4	8
Hours of storage (Shared with Messaging feature)	4,000	4,000	7,000
<b>Call Manager® (Unified Communications)</b>			
Users	40	200	800 (360 limit on Strata CIX)
<b>Messaging</b>			
Departments	999	999	999
Mailboxes (basic or Unified Messaging)	1,000	5,000	10,000
Script Mailboxes	20	20	20
Simultaneous Calls	8 or 24	24	24
Hours of storage (Shared with Meeting record feature)	4,000	4,000	7,000

## IPedge APPLICATION SERVER TECHNICAL SPECIFICATIONS

	IPedge EP App Server	IPedge EC App Server	IPedge EM App Server
Mounting	Stand alone or 19" Rackmount	Rackmount	Rackmount
Dimensions	1.75U or 2.362" high; 15" deep; 8.12" wide	1U; 15" deep; 19" wide	1U; 25.6" deep; 19" wide
Computing power	1 Atom Dual Core x 1.80 GHz Processor, 4GB DRAM	1 Core 2 Quad x 2.6GHz Processor, 4GB DRAM	2 Quad Core x 2GHz Xeon Processors, 12GB DRAM
Data storage	250GB HDD	1 x 250GB HDD (RAID1 kit option includes a second 250GB HDD)	4 x 300GB HDDs (RAID 1 standard, RAID5 optional)
Operating temperature	50° – 95°F (10°C – 35°C)		
Operating humidity	20 – 80 percent (non condensing)		
Storage temperature	-4° – +140°F (-20° – +60°C)		
Warranty	One year standard, optional extended warranty for two, three or five years
